

SureTherm™ CO₂ Incubator Series with

INCUCVIEW™ LCI

LIVE CELL IMAGING

Internal microscope option
monitor cells on display or remotely with smart-device

Precision temperature control
six-sided heating, ambient +5 to 80°C

Excellent accuracy and recovery
with dual beam IR sensor for measuring CO₂

Heated door and door frame
prevents chamber/door condensation

IncucView™ LCI
Integrated microscope & monitor
for real-time viewing of cells in a
controlled CO₂ environment
